

Corporate Quality Policy

Meeting consumer's expectations in terms of quality products is a prime priority.

Our Commitment

To build trust and confidence in consumers and develop loyalty towards us, we are consistently delivering branded products of excellent quality. LT Foods understand the different needs, preference and convenience of our consumers, customers and strive to develop and deliver superior brand and products to ensure that consumer having preferred choice by applying consistently high quality and food safety standards.

LT Foods able to do things right first time, continuously working to reduce recycle waste cut cost, and drive profitability.

Our Quality Policy describes the principles that everyone in LT Foods follows to ensure, recognize and build trust develop integrity and translate into the quality of our brands and products, and set high benchmark and standards for our products.

Principles of the Quality Policy

Putting the safety of our products and our consumers first

We have stringent mandatory quality standards in place against which compliance is verified through regular audits of GFSI schemes like BRCGS, IFS, FSSC 22000 V5.1, Social and EHS compliance and self-assessments. These standards ensure we design, manufacture and supply products that are safe, of excellent quality, and conform to the Food industry and regulatory standards in the countries in which we operate.

Comprehensive management procedures are in place to mitigate risks and to protect our consumers and markets.

Putting consumers and customers at the heart of our business

LT Foods actively engage our consumers and customers, transforming their needs and requirements into our products. Thus creating consumer value wherever we position our products. This is at the very heart of our innovation process.

Quality is a shared responsibility

Quality and consumer safety is the responsibility of every LT Foods employee and LT Foods demonstrates visible and consistent leadership to meet this policy. The drive for quality, in all that we do, is a passion reflected in our brand development, manufacturing

and customer service processes and is also expected with all our business partners. We partner with stakeholders to provide leadership, promote transparency and share best practices.

Health and Nutrition: Our perspective is to maintain the nutrition present in our product and benefit our customer health. Our product undergoes in depth analytical testing at high end Laboratories for nutrition availability to deliver the commitment of health and nutrition to the consumers and customers.

Building and maintaining excellent systems and processes

LT Foods proactively and continuously developing the systems and processes to ensure quality and safety throughout the whole value chain, and striving to set benchmarks for the industry. LT Foods provide appropriate training and resources, and will ensure that we deliver our quality objectives and targets. We regularly measure and improve our performance using both internal and external measures.

We actively promote our Quality Policy and have a quality assurance organization in place to ensure consistency and visibility of quality standards, processes and performance indicators across all LT Foods businesses at all levels, and to anticipate and develop future quality capability requirements.

Advisory Panel focused prospects: An advisory panel proactively focuses on five values to innovate new ideas, develop, Sustain, continual improvement with customer centricity across LT group to give effective Quality product to our consumer, customer, and stakeholder by taking care of environmental, social and economic aspects.

Ownership: Trust, dedication & commitment by empowering resources. Accountability & responsibility to the every employee in the organization and respect for all.

Business Ethics: Sincerity and honesty in delivering the best by being honest & transparent in our process.
